Attachment A to Amendment A0001 Responses to Questions from Potential Offerors

1. Question

Does the DCRB have historical since inception cashflow and valuation breakdowns on every private fund investment in machine readable format (eg. Excel)? This cashflow data is critical in order to perform carried interest validation, even if the scope of work is only looking at the quarterly accrued / paid amounts for a certain time period.

Answer

Yes, for all active private funds.

2. Question

The procurement mentions establishing a methodology for validation of a sample selection of funds in L2.7.5.3 (page 35.), but in the pricing description, requires pricing for all funds to be validated. Can you confirm which approach is preferred, as validating a sample set vs. the entire portfolio have material differences in pricing. If the DCRB expects a sample set, how many funds are to be a part of the sample set.

All funds need to be validated.
