Personally Identifiable Information Policy

1.0 Purpose

DCRB information technology (IT) recognizes its need to maintain the confidentiality of personal identifiable information (PII) and understands that such information is unique to each individual. This policy addresses PII that is managed and produced from various types of DCRB work activities and applies to DCRB employees, contractors, consultants, and vendors, including PII maintained on the DCRB customer base (District of Columbia teacher, police, and firefighter retirees).

2.0 Scope

The scope of this policy is intended to be comprehensive and includes requirements for the security and protection of PII throughout the agency and its approved vendors both onsite and offsite. All applicable DCRB departments will develop and implement specific processes and procedures for protecting PII when necessary. Such policies will be governed by applicable District of Columbia and Federal laws. These laws govern in the event of any conflict between these laws and DCRB policies.

3.0 Policy

In the DCRB organizational environment, PII is unique, personal data that includes, but is not limited to, the following:

- Social Security Numbers (or their equivalent issued by governmental entities outside the United States)
- Employer Identification Numbers (or their equivalent issued by government entities outside the United States)
- State or foreign driver's license numbers
- Date(s) of birth
- Government or individually held credit or debit transaction card numbers (including PIN or access numbers) maintained in organizational or approved vendor records

PII may reside in hard copy or in electronic records; both forms of PII fall within the scope of this policy.

3.1 Vendors

Individual(s) or companies that have been approved by DCRB as a recipient of organizational and member PII and from which DCRB has received certification of their data protection practices that conform to this policy. Vendors include all external providers of services to the agency as well as proposed vendors. No PII can be transmitted to any vendor in any method unless the vendor has been pre-certified for the receipt of such information.

3.2 PII Retention

DCRB understands the importance of minimizing the amount of PII it maintains and will retain PII only as long as necessary. A joint task force comprising members of the DCRB Legal, Finance, IT, Contracts and Human Resources Departments will maintain organizational record retention procedures, which will dictate the length of data retention and data destruction methods for both hard copy and electronic records.

3.3 PII Training

All employees and contractors at DCRB who may have access to PII will be provided with introductory training regarding PII policy, will be provided a copy of this PII policy, and will be provided a copy of PII-related procedures for the department to which they are assigned. Employees in positions with regular ongoing access to PII or those transferred into such positions will be provided with training that reinforces this policy and reinforces the procedures for the maintenance of PII. Employees will receive annual training regarding the security and protection of PII and company proprietary data

3.4 PII Audit(s)

DCRB will conduct audits of PII maintained by DCRB in conjunction with fiscal year closing activities to ensure that this PII policy remains strictly enforced and to ascertain the necessity for the continued retention of specific PII throughout DCRB. Where the need no longer exists, PII will be destroyed in accordance with protocols for destruction of such records and logs will be maintained that record the dates of the specific PII destruction. The audits will be conducted by the DCRB Finance, IT, Procurement, and Human Resources Departments under the auspices of the DCRB Legal Department.

3.5 Data Breaches/Notification

Databases or data sets that include PII may be breached inadvertently or through wrongful intrusion. Upon becoming aware of a data breach, DCRB will notify all affected individuals whose PII may have been compromised, and the notice will be accompanied by a description of action being taken to reconcile any damage as a result of the data breach. Notices will be provided as expeditiously as possible and will be provided no later than the commencement of the payroll period after which the breach was discovered.

3.6 Data Access

DCRB maintains multiple IT systems in which PII resides; thus, user access to such IT resources will be the responsibility of the DCRB IT Department. The DCRB IT Department will create internal controls for such IT resources to establish legitimate access for users of data, and access will be limited to those users approved by IT. Any change in vendor status or the termination of an employee or contractor with access to PII will immediately result in the termination of the user's access to all systems where the PII resides.

3.7 Data Transmission and Transportation

1. Within DCRB: DCRB will have defined responsibilities for onsite access of data that may include access to PII. DCRB IT Security will have oversight responsibility for all electronic records and data access to those electronic records. DCRB will be responsible for implementing the access and terminating the access of individual users to PII within the organization and providing timely notice to IT.

2. Agencies and Vendors: DCRB may share data with other agencies and vendors such as the Office of Personnel Management, the U.S. Department of the Treasury, and the DCRB independent actuary who have legitimate business needs for PII data. Where such sharing of data is required, the DCRB IT Department will be responsible for creating and maintaining data encryption and protection standards to safeguard all PII during transmission to those agencies and vendors. An approved vendor list will be maintained by the DCRB Procurement Department, which will be responsible for notifying DCRB IT of any changes to vendor status.

3. Portable Storage Devices: DCRB will reserve the right to restrict the PII it maintains in the workplace. In the course of doing business, PII data may also be downloaded to laptops or other computing storage devices to facilitate agency business. To protect such data, the agency will require that those devices use DCRB IT Department-approved encryption and security protection software while such devices are in use on or off company premises. The DCRB IT Department will be responsible for maintaining data encryption and data protection standards to safeguard PII that resides on these portable storage devices.

4. Off-Site Access to PII: DCRB understands that employees may need to access PII while off site or on business travel, and access to such data shall not be prohibited subject to the provision that the data to be accessed is minimized to the greatest degree possible while still meeting business needs and that such data shall reside only on assigned laptops/approved storage devices that have been secured in advance by the DCRB IT Department with data encryption and data protection standards.

4.0 Policy Enforcement

Failure to follow this policy may result in disciplinary action and/or contract termination.

5.0 Policy Owner

DCRB IT Security is responsible for this policy.

6.0 Policy Review

This policy will be reviewed annually by DCRB IT management. All employees, contractors, consultants, and vendors will review this policy, and will acknowledge in writing that they have read this policy.

Issue Date of Policy: February 2013
Next Management Review Date: February 2014
